

## **PES President-Elect Establishes Communication Exchange Links for PES Members and Officers**

PES President-Elect Noel S. Schulz believes strongly that “information exchange is an important part of our process to move IEEE and PES toward goals in the future. It is important that all PES members know what the PES Governing Board is doing and considering to help us make the best decisions to represent our members.

“With this in mind, I have started some links where you can keep up with PES activities as well as dialog with me and other PES Governing Board members:

- Feel free to follow my PES-related tweet on [www.Twitter.com](http://www.Twitter.com), @ieeepes\_noel.
- Also we have started a group within Facebook called “Discussions on IEEE Power & Energy Society.” Anyone can be a member of the group and participate in discussions.
- Third, I have started a PES-related blog at <http://www.eece.ksu.edu/~noels/blog/>.
- Last but not least is e-mail. You can contact me at [n.schulz@ieee.org](mailto:n.schulz@ieee.org).

“Over the next two years as president-elect I will use these tools to get ideas and perspectives on activities and programs that would increase the reach of PES. I hope to have an opportunity to visit with many of you in person or virtually. Look for announcements in the future about webinars and chats with me and other PES Governing Board members.”
