

IEEE TRANSACTIONS ON POWER DELIVERY

IEEE POWER & ENERGY SOCIETY

DECEMBER 2019

VOLUME 34

NUMBER 6

ITPDE5

(ISSN 0885-8977)

PAPERS

Study on a New Combined Anti-Galloping Device for UHV Overhead Transmission Lines	2070
..... <i>J. Si, X. Rui, B. Liu, L. Zhou, and S. Liu</i>	
Implementation and Experimental Verification of a Novel Control Strategy for a UPFC-Based Interphase Power Controller	2079
..... <i>K. Elamari and L. A. C. Lopes</i>	
Small Time-Step FPGA-Based Real-Time Simulation of Power Systems Including Multiple Converters	2089
..... <i>R. Mirzahassemi and R. Iravani</i>	
A Review of Dynamic Thermal Line Rating Methods With Forecasting	
..... <i>D. A. Douglass, J. Gentle, H.-M. Nguyen, W. Chisholm,</i>	
<i>C. Xu, T. Goodwin, H. Chen, S. Nuthalapati, N. Hurst, I. Grant, J. A. Jardini, R. Kluge, P. Traynor, and C. Davis</i>	2100
Reduced-Order Dynamic Model of Modular Multilevel Converter in Long Time Scale and Its Application in Power System Low-Frequency Oscillation Analysis	2110
<i>S. Zhu, K. Liu, L. Qin, X. Ran, Y. Li, Q. Huai, X. Liao, and J. Zhang</i>	
Practical Methodology for Two-Terminal Traveling Wave-Based Fault Location Eliminating the Need for Line Parameters and Time Synchronization	
..... <i>F. V. Lopes, P. Lima, J. P. G. Ribeiro, T. R. Honorato, K. M. Silva, E. J. S. Leite Jr., W. L. A. Neves, and G. Rocha</i>	2123
A Series Capacitor Based Frequency Scan Method for SSR Studies	2135
<i>Y. Cheng, S. H. Huang, and J. Rose</i>	
Lightning Performance of Transmission Lines: Impact of Current Waveform and Front-Time on Backflashover Occurrence	2145
..... <i>F. H. Silveira and S. Visacro</i>	
Series Compensated Line Parameters Estimation Using Synchrophasor Measurements	
..... <i>A. Momen, Y. Chakhchoukh, and B. K. Johnson</i>	2152
Comparison Between 1-D and 3-D Geoelectric Field Methods to Calculate Geomagnetically Induced Currents: A Case Study	2163
..... <i>R. Sun and C. Balch</i>	
A Three-Phase Adaptive Reclosure Technology for Distribution Feeders Based on Parameter Identification	
..... <i>K. Zhu and R. Lv</i>	2173
Equivalent Model of Modular Multilevel Converter Considering Capacitor Voltage Ripples	
..... <i>Y. Ma, H. Lin, and Z. Wang</i>	2182
Adaptive Single-Pole Auto-Reclosing Scheme for Hybrid MMC-HVDC Systems	
..... <i>T. Wang, G. Song, and K. S. T. Hussain</i>	2194
Self-Blast Current Interruption and Adaption to Medium-Voltage Load Current Switching	
..... <i>H. Taxt, K. Niayesh, and M. Runde</i>	2204

(Contents Continued on Page 2069)

Tank Current Measurement of Three-Phase Transformer: Its Resonance Behavior and Sensitivity to Detect Mechanical Faults	<i>S. Pramanik, V. S. B. C. Duvvury, and S. Sahoo</i>	2211
Optimal Blocking Device Placement for Geomagnetic Disturbance Mitigation	<i>Y. Liang, D. He, H. Zhu, and D. Chen</i>	2219
Mitigation of Half-Cycle Saturation of Adjacent Transformers During HVDC Monopolar Operation—Part I: Mitigation Principle and Device Design	<i>M. Yang, D. Deswal, and F. de León</i>	2232
DC Current Distribution in Both AC Power Grids and Pipelines Near HVDC Grounding Electrode Considering Their Interaction	<i>B. Zhang, F. Cao, R. Zeng, J. He, X. Meng, Y. Liao, and R. Li</i>	2240

POWER ENGINEERING LETTERS

A Voltage Smoothing Algorithm Using Energy Storage PQ Control in PV-Integrated Power Grid	<i>P. Siratarnsophon, K. W. Lao, D. Rosewater, and S. Santoso</i>	2248
Closed-Form Expression for Ground Return Admittance in Underground Cables	<i>J. P. L. Salvador, A. P. C. Magalhães, A. C. S. Lima, and M. T. C. de Barros</i>	2251
A New Option for On-Site Drying of Power Transformer: Mobile Vapor Phase Drying	<i>B. Qiao, Z. Ma, and M. Qiao</i>	2254
A Novel Instrumentation Approach for Clustered Appliance Load Monitoring	<i>S. Dash, R. Sodhi, and B. Sodhi</i>	2257
PMU Holdover Performance Enhancement Using Double-Oven Controlled Oscillator	<i>W. Yao, L. Zhan, H. Yin, and Y. Liu</i>	2260
A Frequency-Dependent Prandtl–Ishlinskii Model of Hysteresis Loop Under Rotating Magnetic Fields	<i>N. Alatawneh and M. A. Janaideh</i>	2263
Reconciling Tap-Changing Transformer Models	<i>J. M. Cano, Md R. R. Mojumdar, and G. A. Orcajo</i>	2266
A Novel Partial Discharge Detection Method for Power Transformers On Site Adopting Its Component as Ultra-High Frequency Sensor	<i>X. Zhang, M. Shi, J. Cai, and J. Li</i>	2269
A Real-Time Adjustment of Conventional Under-Frequency Load Shedding Thresholds	<i>B. Potel, V. Debusschere, F. Cadoux, and U. Rudez</i>	2272
Correcting Systematic Errors in Corona Losses Measured With Phasor Measurement Units	<i>K. Tuttelberg, M. Löper, and J. Kilter</i>	2275
Effect of Width of Axial Supporting Spacers on the Buckling Strength of Transformer Inner Winding	<i>A. Bakshi</i>	2278
