

**Prof. Nikos D. Hatzargyriou,
Editor-in-Chief, IEEE Transactions on Power Systems**

National Technical University of Athens
Electrical and Computer Engineering
9, Heroon Polytechniou, 157 73 Zografou, Athens, Greece
nh@power.ece.ntua.gr

We are soliciting application/nomination from IEEE PES members of good standing for the position of Associate Editor of IEEE Transactions on Power Systems. The position will be effective from 1st January 2022.

The scope of *IEEE Transactions on Power Systems* covers the education, analysis, operation, planning, and economics of electric generation, transmission, and distribution systems for general industrial, commercial, public, and domestic consumption, including the interaction with multi-energy carriers. The focus of this transactions is the power system from a systems viewpoint instead of components of the system. It has five (5) key areas within its scope with several technical topics within each area. These areas are: (1) Power Engineering Education, (2) Power System Analysis, Computing, and Economics, (3) Power System Dynamic Performance, (4) Power System Operations, and (5) Power System Planning and Implementation.

The essential requirements that all applicants should meet and which should be covered by enclosed CV include

- Minimum of 3 years of academic experience as full time academic or 3 years of industrial experience as industry technical specialist.
- It is expected that the applicant has published about 10 or more journal papers in the last 5 years of which at least 3 should be in IEEE Transactions on Power Systems
- For applicants from industry the lack of PhD degree can be compensated by attained chartered/professional engineer status.
- Involvement in national and international working groups, task forces, standardisation committees, industry advisory bodies, etc.
- Involvement in research evaluation as a reviewer or panel member.
- Invitations to give technical or academic presentations to industry or academia.

The deadline for receipt of all materials is 15st November 2021. All materials should be sent as a single pdf document to: Maria Proetto, Senior Administrator, PES Publication Services, m.proetto@ieee.org with the transactions title you are applying or being nominated for

Application/nomination materials must include the following information.

1. Prior service on an IEEE Editorial Board
2. Technical Committee activity
3. IEEE Region (1-10)
4. Profession Sector (i.e., academia, utility, manufacturer, government, vendor, research institute, other)
5. Three to five (maximum) keywords of research/professional expertise
6. Titles of 3-10 journal papers authored by nominee in the last 5 years of which at least 3 should be in IEEE Transactions on Power Systems
7. Names and contact information of two references
8. A resume/CV (max 2-pages) addressing the essential criteria specified above

The process:

The EiC and EiC-elect will shortlist candidates and provide them with detailed information on the responsibilities, expectations and guidelines of TPWRS editorial work. Upon receiving their agreement with those, the committee will make the recommendation to the PES Vice President (Publications) who will confirm the appointment.

Best regards

Nikos Hatzargyriou, EiC IEEE Transactions on Power Systems
Jovica Milanovic, EiC-elect IEEE Transactions on Power Systems
