

**Dear All**

We are soliciting application/nomination from IEEE PES members in good standing for the position of Editor-in-Chief of IEEE Transactions on Energy Conversion. The position will be effective from 1st September 2023.

**The scope:**

The IEEE Transactions on Energy Conversion publishes both research and application-oriented articles dealing with the development, design, operation, modeling, analysis, diagnostics and control of electrical equipment used to convert any kind of energy (such as mechanical, chemical and solar) into electrical energy and vice versa. Any electric power generating apparatus based on fossil, renewable, nuclear or unconventional sources and used for either centralized or distributed generation systems is of interest for the journal. The scope also includes any kind of equipment used to convert electric into mechanical power, such as electric drives, machinery and actuators. Electrical energy storage and electrical energy production from storage are covered. Power electronics and control should not be the primary research contribution of the papers. They are of interest only when they are part of the energy conversion process being described, such as power electronics converters treated as a part of electric drives, or grid interfaces for electric power generation or electric energy storage devices.

**Search for the Editor-in-Chief:**

The deadline for receipt of all materials is 15<sup>th</sup> June 2022. All materials should be sent to: Maria Proetto, Senior Manager, PES Publications, at [PESEICapp@ieee.org](mailto:PESEICapp@ieee.org) **with the transactions title you are applying or being nominated for in the subject of the email.**

**Application/nomination materials must include the following information.**

- (i) Prior service on an IEEE PES Trans on Energy Conversion Editorial Board
- (ii) Technical Committee activity
- (iii) IEEE Region
- (iv) Profession Sector (i.e. academia, utility, manufacturer, government, vendor, other)
- (v) Up to five keywords of expertise
- (vi) Titles of 10-15 IEEE/non-IEEE papers authored by the applicant/nominee most relevant to the scope of IEEE Trans on Energy Conversion
- (vii) Names and contact information of three references
- (viii) A resume/CV (max 4-pages)

**The process:**

An EIC search committee comprised of all EICs from PES transactions, EIC at Large and VP Publications. Shortlisted candidates will be invited for discussions with the committee to assess their leadership visions and strategies for the journal. The committee will make the recommendation to the PES President who will confirm the appointment after endorsement from the ExCom/Governing Board. More information can be found from in the PES Publications website: <https://www.ieee-pes.org/publications>

Thank you

Bikash Pal
