

Engaging with IEEE Power & Energy Society (PES) publications is an enriching experience for everyone involved. PES always welcomes volunteers who wish to participate in the peer review process. If you are interested in serving as an Associate Editor for the *IEEE Open Access Journal of Power and Energy* (OAJPE), contact Maria Proetto (m.proetto@ieee.org), PES staff lead or the Editor-in-Chief with a CV (2 pages maximum) containing:

1. OAJPE as the title of your interest
2. Your qualification, affiliation, experience and IEEE membership status
3. Your past five year's track record of publications in the field of interest of the Power & Energy Society, preferably in PES publications
4. Your other volunteer activities for PES and its sister societies including review/editing track records
5. Your record of volunteering for other journals from other publishers
6. Any technical report, patents, IEEE or IEC standard in which you have been involved. This is essential for those who are working in industry but not very active in IEEE publications.

Obtaining a position on the OAJPE Editorial Board is subject to the need for your area of expertise. Members are also appointed to promote diversity (gender, geography and affiliation). We look forward to learning of your interest in serving on the OAJPE Editorial Board.
