

Life with Power & Energy.

Life without it.

Join the IEEE Power & Energy Society and Don't be Left in the Dark

Your membership in IEEE PES enables you to:

- Tackle broad-reaching challenges
- Become recognized as a thought leader by your industry peers
- Develop contacts that will prove useful throughout all stages of your career
- Be a part of the very active and engaged global PES Community

We help our members to be successful by providing:

- Up-to-date information on current trends and the latest technology
- Industry insight through Power & Energy magazine, technical reports and peer-reviewed publications
- Compelling programs and networking opportunities at our conferences and events
- Opportunity to meet, network and collaborate with local members via our vibrant chapters

Over 38,000 members of the IEEE Power & Energy Society recognize that their membership is an exceptional, cost-effective way to acquire the latest information about all aspects of the fast-changing electric power and energy industry. You can too, if you join us now!
