Are You a Professional in the Power Industry Who Would Like to Learn More About How Electric Utilities Operate?

- **Do You** work in the power industry but not as an engineer?
- **Would You** like to understand more about the technical aspects of the industry in a format that is geared to non-technical professionals?
- **Are You** an engineer new to the industry, or working in another industry who would like to transition to the power industry?

If you answered YES to the questions above...
Register for our upcoming courses:

**Plain Talk About Electric Utility Operation**

**December 11, 2014**
IEEE Operations Center
Piscataway, NJ

**POWER SYSTEM BASICS - UNDERSTANDING THE ELECTRIC UTILITY OPERATION INSIDE AND OUT**

The focus of the IEEE PES course “Power System Basics” is to provide a fundamental foundation in electric power systems, from basic formulas to the planning, operations, and equipment involved in generating, transmitting, and distributing electric power. Basic electrical terminology will be explained in simple to understand language with regard to design, construction, operation and maintenance of power plants, substations, and transmission and distribution lines. Anyone who is involved in some way with the electric utility industry can benefit from attendance at this course.
